

**Public Safety Building Committee**  
**Meeting Minutes – August 22, 2017**

Attendees: Carol McLeod, Yvonne Bednarz, Eric Shears, Mark Tocci Chris Gaudet.

Meeting called to order at 6:05 PM

Discussion:

- The Committee reviewed the survey results and decided to come forward with a borrowing article in the amount of \$500K for the Fall Town Meeting for Engineering Design for the Police Station. At this time we feel that the Police Station has the most critical issues and the most support from the residents. The hope is to gain approval for this in the Fall, then have a real set of plans to bring forward in the Spring. Hopefully if we get going on this, then the new DPW and renovations at the Fire Station can follow shortly after.
- The Committee also agreed that we need to come in with a smaller less elaborate design, hopefully around 5-6 Million.
- Yvonne will be reviewing the comments and coming up with FAQ's to address the most common comments.
- Chris has been calling all State and Federal agencies and representatives that could possibly have any grants. He is asking for a letter from each person he contacts stating that they've researched grants and funding, and the results. This way we can document our efforts.

The next meeting is scheduled for September 5<sup>th</sup> at 7 PM at Town Hall.

Adjourned at 7:30 PM
